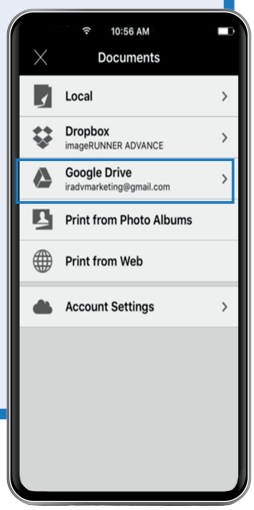
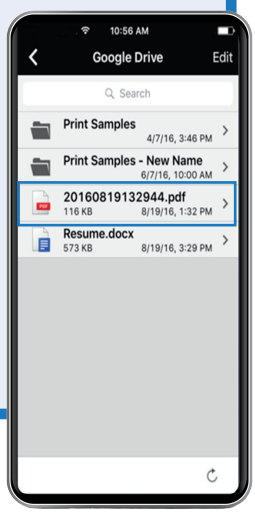
Print with Canon PRINT Business App

Print documents saved in a cloud location or local to your mobile device

1. Select **"Documents"** in the application and choose the file location.



2. Choose the **file** you want to print.



3. Preview the file and tap the **printer icon**.

4. Confirm your printer and select print/ finishing settings. Tap **"Print."**

Note: Print/Finishing options available: Output Size, Copies, Print Range, Paper Source, Select Color Mode, Simplex or Duplex, Staple, and 2-on-1. Available print/finishing settings differ, depending on the device model. If you set functions not supported by the device you're using, the settings will not be applied.

Scan with Canon PRINT Business

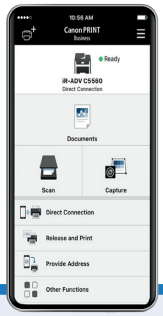
Scanning to your mobile device is easy

Add document to the imageRUNNER ADVANCE document feeder.

1

Tap "Scan to Mobile" on the imageRUNNER ADVANCE control panel.

2



Select your scan settings in the Canon PRINT Business app.

[Supported file types: PDF,* JPEG, TIFF, OOXML (pptx), OOXML (docx), XPS **]

3

SAVE

box Evernote Dropbox

OR

SEND

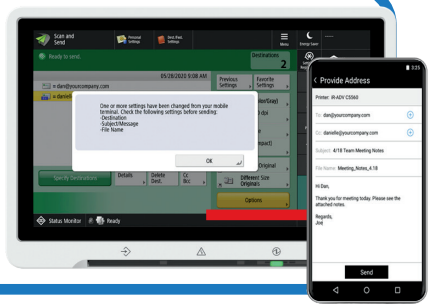
Save the scanned document to a local or cloud destination. Or, send it from your mobile device's email app.

4

* Compact, OCR, and Encryption can be set.
** Can only be set when using the "Scan and Send" function.

Easier Sending from the MFP with Canon PRINT Business

The "Provide Address " feature of the Canon PRINT Business app allows **you to use your mobile device to fill in send destinations (including using your mobile device contacts), subject name, message body, and file name fields on the imageRUNNER ADVANCE** "Scan and Send " screen. This helps reduce touch-points at the control panel when sending documents to destinations from the imageRUNNER ADVANCE MFP.



Note: This document assumes the mobile device and MFP are on the same network.
