Fiery® imagePASS-R1
Fiery FS400

Bring professional printing to your office

The imagePASS-R1 Server for the Canon imageRUNNER ADVANCE C5800 Series lets you produce high-quality finished documents in less time, without expert knowledge.

Improve in-house colour print quality

Produce stunning colour with the smoothest blends, maximum shadow details, and superb image definition with Fiery® Edge™ default ICC profiles built in.

Accurately reproduce brand colours, match PANTONE® and custom spot colours with Fiery Spot-On™.

Print with ease

Use Fiery VUE — a free interactive application — to produce professional-looking business documents such as booklets, sales guides, reports, and training manuals.

Create personalised communications with Fiery FreeForm™ Create. Use it to personalise documents to a specific audience by adding variable elements such as text, images, or barcodes with just a few clicks.

Get more from your printers

Use Fiery Command WorkStation® — the powerful, intuitive job management interface — to set up and print complex jobs in house, regardless of the operator's experience. Take advantage of commonly used Fiery presets to save makeready time.

A secure print environment

The imagePASS-R1 comes with security features such as USB security to prevent data theft. User data encryption keeps data protected. Security profiles allow you to easily define your security requirements to meet your organisation's needs.
